

My Dear Honourable Justice Sir,

Sir this is my fourth letter but let me partly introduce myself. I am your one of the well wisher who met you with R M Sharma close associate of our other friend. I am sorry you cant recollect, the same Sharma whom you tried to appoint Justice from the state where he had never practiced and Justice Raveendran had come with the approval but he could not be appointed because..... Sir, I had arranged something for you in Chennai. I want to inform you that all the activities of your son is also with us. The way you have decided in UP CM matter and ordered CBI enquiry in this was welcomed by the masses.

We knew that you are not going to change whatever you have already done. We thought you will dismiss the review petition of Mulayam Singh but you not only entertained the review but unusually you listed the matter in open court. Though we respect you but we have all the details and facts of your all the activities.

We know where and with whom you stayed in different cities and what your bank balances are. Forget about being appointed as governor and your son as Justice but you may go to jail.

You don't entertain this matter. Don't fear that Amar Singh has shown CD to press but we may show everything whatever you have done. Pl don't order the investigation in this letter otherwise everything will be investigated.
